- **Anthropic, 2026**
  - Claude Code In Action — link
  - Introduction to Claude Cowork — link
- **UM6P / YouCode, 2023-2025**
  Full Stack Development
- **Specialized Institute of Applied Technology, Tinghir, 2021 - 2023**
  Specialized Technician Diploma
  Digital Development – Web Full Stack option
  2 Ambassadors Program – Orientation Cell (22-23)

LANGUAGES

- **Tamazight** : Native
- **Arabic** : Native
- **English** : Advanced
- **French** : Intermediate

PROJECTS

SudEst Market — link

Online platform to discover Draa-Tafilalet crafts and gastronomy, with online payment.

- **Tech: PHP, Laravel, JavaScript, AJAX, jQuery, Tailwind CSS, HTML5, CSS3**

LigueChasse — link

Application de gestion des compétitions qui répond aux besoins des administrateurs et des participants.

- **Tech: Java, Angular, Spring Boot, Spring Security, Maven, JPA, JUnit, Mockito, Postman, Swagger.**

PROFESSIONAL EXPERIENCE (~2 Years)

- **Backend Developer**
  EasyDmat — 04/2025 - Present
  - **Key tasks**
    - Built and maintained the core sales REST APIs (Laravel 13, ~300 endpoints) for a multi-tenant dealership platform.
    - Integrated 3rd-party services (Eurodatacar, ViaLink e-signature, Roole OAuth2, OCR), B2B APIs, and built a JWT document microservice (Symfony).
    - Collaborated with technical leads to design scalable backend architecture, microservices, and automate internal workflows, improving development efficiency.
    - Implemented a configurable business rules engine, enabling dynamic field management and calculation logic without code changes.
  - **Tech: PHP 8.3, Laravel 13, Symfony 6.4, Sanctum, JWT, MariaDB, Docker**
- **Full Stack Developer (Freelance)**
  ZAIM Digital - Casablanca — 10/2024 - 12/2024
  - **Key tasks**
    - Built a solution to synchronize CRUD operations with Odoo.
    - Collaborated with the team to develop and automate Excel report generation.
  - **Tech: Symfony 6.4, Stimulus JS, Docker, Bootstrap 5, AJAX, JavaScript, MariaDB**
- **Full Stack Developer** — link
  ZAIM Digital - Casablanca — 05/2024 - 07/2024
  - **Key tasks**
    - Developed KPI charts/dashboards for the LABCORP BTP project.
    - Identified and fixed application errors.
  - **Tech: Symfony 6.4, Stimulus JS, Docker, ChartJS, Bootstrap 5, AJAX, JavaScript, MariaDB**

TECHNICAL SKILLS

- **Backend**
  PHP, Laravel, Symfony, Java, JEE, Spring Boot, Rest API
- **Frontend**
  JavaScript, ReactJS, Angular, CSS, Tailwind CSS, Bootstrap 5, HTML, Blade, Twig
- **Databases**
  MySQL, PostgreSQL, MongoDB
- **Version Control**
  Git, Github, Bitbucket
- **Project Management**
  Jira Software, Trello
- **Expertise**
  Agile Scrum, GitFlow, SOLID Principles, CI/CD, Design Patterns, Caching, Microservices, Queue Jobs
